 Same as No. 1073W, but without built-in locomotive whistle. No. 1073. Price \$8.50

SELLERS - DON'T MISS THIS ONE - IT'S A HONEY!

No. 902B "0" Gauge Pennsylvania Switching Engine and Tender car for Tubular track. Complete in every detail. Equipped with built-in electrically operated locomotive bell which tolls realistically as long as power is applied. May be disconnected by means of a special switch. Equipped with electric couplers, on pilot and tender, which may be actuated on any style of track at any time. Stopping back tender has a working back-up head-light and pilot lights. Driving gear simulates the internal Stephenson valve gear used by the parent Pennsylvania switcher for reversing. Cab and boiler are die-cast in hardened steel dies. The engine receives tremendous power through a precision-cut worm gear and a heavy duty A.C.-D.C. motor. A controller is included. For use with 2651, 2750 and 2900 series cars. Consists of: No. 227 Locomotive, No. 2227B Tender, and No. 169X Controller. Price \$27.50
