F 60-20 CATERPILLAR TRACTOR\$44.95

(3 1/2 yrs. up)—At last a most imposing and well built operating tractor. All steel construction with caterpillar tractor treads mounted over 9 1/2" rubber tired disc wheels with four idler wheels on each side. To assure easy progress, it has pedal action with chain drive. Direction controlled by rubber gripped lever attached to each side, while another lever operates the 21" wide plow attachment out front. Has rubber padded seat, 2 small tool boxes welded on, an exhaust stack and picture of an engine on hood. Measures 42" overall. Ship. wt. 76 lbs.

G 40-84 ROW CAR\$27.95

(5 to 10 yrs.) Available for the first time in several years. Fortunate are the riders of this vehicle. It's very maneuverable, speedy and its rowing action gives beneficial exercise to arms and back. Made entirely of metal. Seat adjustable. Steered by feet on front axle. Has rubber tired wheels. Enameled in a combination of red, blue, brown and gray. Measures 36" overall. Ship. wt. 30 lbs.

H-J HUFFY CONVERTIBLE—(4 to 7 yrs.)—From velocipede to bicycle.

This vehicle grows with the youngster's ability to ride and most children grow from the velocipede to the bicycle rather quickly. When the child first tries to ride, the outrigger wheels keep the bike from tipping over, and by raising the adjustable outrigger wheels, the child gets the feeling of riding a "two-wheeler". Finally the outrigger wheels can be removed and used for other purposes. Bike has coaster brake, adjustable handle bars, and sturdy outrigger wheels with moulded tires. "Fits sooner frame" has adjustable saddle equipped with new friction lock seat post which eliminates usual post clamp, permitting saddle to be lowered extra 2 inches. Bicycle built with bicycle fittings and bearings throughout. Boy's model is maroon with white trim; Girl's is royal blue with white trim.

With 20" wheels and balloon pneumatic tires: (Illustrated) For inside leg measurement 18" to 24".
